

COVID-19 in San Joaquin

Current numbers

Case rate/100K:

11.2

Positivity rate:

4.4%

Health equity:

4.2%

The county's case rate is currently in the **purple tier**, while its positivity rate and health equity metric are in the **orange**.

	Case rate/100K	Positivity rate	Health equity
Purple	>7	8%	
Red	4-7	5-8%	5.3-8%
Orange	1-3.9	2-4.9%	2.2-5.2%
Yellow	<1	<2	<2.2%

Because its positivity and health equity rates are so low, San Joaquin could be in the **red tier** as soon as **next week.**

Here's how that could happen.

The case rate falls **below 7** (the normal requirement for red)

or

The case rate stays above 7, but the positivity and health equity rates **remain in the orange** tier criteria

Once San Joaquin is in the red tier:

- **Schools** can start reopening
- **Restaurants and gyms** can operate indoors
- **Retailers** can expand capacity from 25% to 50%
